

Large Variety of Fish Pulling dem Strings!!

4-26-11

Well, let's just start out sayin its been a lil breezy at times down here in South Ms.. But the Whipasnapa Charter Boat is steadily rising to the challenge.

A couple offshore voyages were cut short due to a lil excessive chumming, but in the short times out it didn't take long to hook up on several huge red snapper(20+lb). The BIG o'l SOWS have pulled da strings consistently. Pull they do, can't wait till June so we can start keeping a few. But for the box was triggers, shark, and a few small cobia along with a few nice bull reds.

Inshore the puppy drum (aka blackdrum) have really been hot the 4 to 6lb range which are just right for some table fare and excellent lil string pullers themselves. A large variety of fish are starting to hit the box of the Whipasnapa, well the deck I should say, most have been fly in trips so not keepin much. Some took a few over to the diner.. An did clean a few for some less fortunate folks that hang around the dock... The lil 4hr inshore trips have been netting 20sh blackdrum, some flounder, nice white trout, few specks, large gaftops have been falling victim to the Snapa crews also. Ground mullet and of course that obnoxious lil pain in the rump croaker. Which eat as good as the rest..... should give'em a try.

Several good trips with some absolutely wonderful fisher peeps, Love this way of life!!!! The winds should start to lay and the good times will definitely continue to roll. God willing!!!

Moan down to Biloxi, MS where the Whipasnapa awaits>>>. lets go get'em!!!

Thanks to all!!!

Capt Robert "Earl" McDaniel

Large Spawning Cobia and New York Campers invade Horn Island.....

4-11-11

Well, another successful week aboard the Biloxi, Ms Charter Boat **Whipasnapa**. Started out with a late evening chumming trip that produced some really exciting shark battles and a very nice Bull Red. Man, some really big spinner shark out there right now. These fellows put on quite a show when hooked. Pretty good test on the equipment also. Mad rampant runs in all directions, jumping and spinning out of the water, alot of times when jumping and spinning they get wrapped in the line! And even with a wire leader they will roll over the main line and there sandpaper like skin will cut the line. Team Fordt did manage to get a few into the boat and forwarded to the grill.

Few nice reds, some rays and a few really nice cobia, have made for some pretty steady action on the chumming trips. Of course, yours truly after a drop off at the island, I went out an scored the biggest cobia of the 2011 spawning season to date. (a nice 50lber)... Most of the week and weekend was tied up with a bunch of campers (some of which were on a senior trip from New York), the Whipasnapa just does it all. Transported the young an vibrant whippersnappers out to Horn Island for a couple day retreat(How fun!!!) It's one of the most beautiful, secluded an relaxing Islands we have.

But, after a day or two, extreme sun, salty water an miles of sand, the need for a good o'l shower and a hot meal is well in their words priceless.

No light tackle this week, but me and the CEO of this multi million dolla operation went out on a lil Back Bay excursion to get all croakered up. And she caught a lil supper, had a few sho nuff line

stretchers but they both eluded the capture. Of course not to be denied I hooked up on one these drag rippers also. Let me show you how to do this SWEETIE.. sad but true mine eluded capture also.. Was either a couple big Reds or some really big Black Drums. Must have 200 croakers thou ready for ya...Everything likes the croaker..

Looks like fishing, camping an just some good ol boating is in full swing down here in South Mississippi!!! Beautiful weather, calm seas, nice clear water, big o'l mean hungry fish>>>so come on down do your boating excursion with **Whipasnapa Charters!!!! We Thanks Ya'll**

Capt Robert "Earl" McDaniel
228-229-6978

Extreme Tug of War with Red Snapper, AmberJack, King Mackerel and more.

4-4-11

What a great week!! Fishing out of Biloxi, Ms. from Backwater to Bluewater with **Whipasnapa Charters**.

Started out with a crew from Wisconsin. They wanted a lil sightseeing, fishing adventure. Mission accomplished. Seen all the Back Bay sights, shrimp boats, Keesler, dolphins, all the great birds, an more. Then went an checked out the beautiful Ship Island..There we caught several sheepshead. It was this one monster sheepshead that was a reel hit. 10+ pounder that was fought by everyone in the crew I believe. This joker was on some serious steroids (one member said). Next group of friends wanted a few sharks, so we went chumming (best way to catch the ol shark) but still just a lil early, with the winds up and neap tides an about 2hrs. of not much action.. The crew decide maybe we should go back in (to the bay) and try to get some meat in the box.. The team scored a few nice blackdrum and ground mullet.

Now for the great Bluewater adventure!!! A put together trip with a couple fellows from North Ms., one from Jackson, Ms. and a fishergal from South Ms., we were blessed with flat calm seas for the day.. As we approached the first rig a really excited and gelling crew was ready, to say the least.. The fun began (at the dock actually) but the 1st rig is where the reel fun began. Huge snapper were up and hitting everything that hit the water. Several great battles followed. And of course a great round of high fives..Next rig, bout the same, just lil bigger at this rig an may have been even more of the BIG RED SNAPPER prowling the surface .. WOW. After several battles free lining, I finally decided to let one drop a few of the hardtails down and see if we could pull up a couple them sure nuff, SOWS!! First time BAM!!! the excitement was growing to see the size of this hard fighting SOW..An finally some red was observed. Then we spotted a nice Cobia trailing the Snapper..That's when a mad scramble took place to get a bait on the Cobia... But he was not interested in riding home with the **Whipasnapa(on this day)**.

Next, needing to put something in the box, we mosey on out to check on the Amberjacks. Well, they were bout as thick and hungry as the Red Snapper. What fun my crew and the guys working on the rig had with this Tug of War Fiasco!!! A couple upper 40 A.J.'s and several high 30's. Everyone was able to get a few great rounds with these hard pulling son of a guns. So, with a lil break in order, I wanted to scout a lil different water for maybe some Cobia! So we headed west to a bit shallower water. Were we did see another Cobia but all we caught were more really nice Red Snapper a couple nice grouper and a couple king mackerel. Sunday, a North West Rankin Team wanted some chumming action. First spot of the day, (Isle of Capri) a few

large bat rays and stingrays pulled the crew pretty good.. along with a few small sharks also added to the action. With time running out an bigger sharks on the request.. we moved out to another spot,(secret spot) after just moments two nice cobia were spotted and a couple really nice sharks were battled. Mission Accomplished...

Great times folks **THANK YOU ALL!!!!** Looks like 2011 with not much fishing pressure in 2010 is going to be a very rewarding an deserved year...!!!

Remember June 1--July 23 is the Red Snapper season.....The Whipasnapa Awaits, locked an loaded....

Capt Robert "Earl" McDaniel

Big Sheeps, Big Reds and Huge Reds bring huge smiles !

3-28-11

Mr. Bruce Scott and his friend Rich started the **Whipasnapa Charter Boat** (Biloxi,Ms) off to a strong start this week. The duo had some really nice sheepshead on that magic bait! They just kept a few to take over and have it cooked up. But boy they really had a few good'ens. Around 15 total, a couple nice 8lbbers an all the others were the 4 to 6lb fish...

A solo fisherman fished Thursday couple hours and he finally managed one them Big Back Bay Reds and a few Black Drum on just a couple hour excursion.

Mr. Jay King and friend from Memphis, Tennessee fished a few hours Friday and smashed the Puppy Drum. Both these trips were not keeping and did not want their picture taken. I did keep a couple and cleaned them up for some very dear friends.

Mr. and Mrs. Payne celebrated their anniversary aboard the **Whipasnapa** Saturday and they tied into a few big Reds also, but the Reds won for the most part. They kept fishing hard and had faith, and finally netted a pair... with few black drum, and a flounder.

Went out to the Island Sunday afternoon, wanted to chum the bar for lil just to see what was happening out there. And in about 4 hours worth had three Bull Reds and one crack ya back Jack!!! No Sharks or Cobia yet. But the water is getting right for them to show up any day now!!

Get your dates ready!!!

Several tournaments coming up and if you like catching Sharks, Cobia and Reds this is the way to go. Could win some good money and catch some really good fish.

One tournament runs from April 15- May 15, 2011. One day Cobia shootout is April 30, 2011.

The Big \$80,000 dollar tournament is May 6,7,and 8th, 2011 so come moan down here and let's WIN!!! WIN!!! WIN!!!!

Sheepshead and slam gorgeous weather!!!

3-21-11

Sheepshead dominate the **Biloxi Ms. Charter Boat WhipaSnapa** report this week. Been blessed to have entertained folks from just about every state this week. Seriously!! Several return friends, which we are always happy to see.. While fishing started out pretty good, beginning of the week, a few smaller reds, some sheeps an a few small puppydrum, really no big or large number catches but 8 to 10 decent fish per trip. All just the 3 or 4 hour light tackle which when the bite is slow is kind of tough to produce a great box. Some ground mullet and white trout throwed in as well. Which or fixen to heat up even more next couple weeks...

But late week I did struggle. I'm not one to make a bunch of excuses but... I just wasn't in the right spot at the right time evidently. The Back Bay is a really great place to fish, but it is vulnerable to big rains, saltwater fish run from fresh water. I did go on the hunt just took a couple days to relocate.. I am Human, just had to get out of the Bay cause first day out to the Barrier Island we hammered the Big Sheeps. And they are still pretty consistent today, lot of people don't know bout the sheepshead but they are a lot of fun on the end of the light tackle spin cast, and eat just fine also. Most have been averaging 4 to 6lb.. Lil peculiar sometimes but patience will usually prevail and of course the right bait helps. With all the rain a week or so ago the bait shops were failing to catch any live shrimp..which did hurt the catches also.. But we improvised an found a even deadlier bait....

Absolutely beautiful weather this week and some really great folks were on board the **WhipaSnapa Charter Boat** for some great boating adventures. I THANK YA'LL>>>>>

I apologize to the couple trips that put their faith in me an I failed... When I struggled it really bothers me... Please give us another try it does not happen often!!?? The bite is back on in the bay now though....

Starting to see some mackerel and bluefish chasing baits out at the Island also, with a lot of rays, and for all the shark lovers seen one them today also, moan in here and lets jump aboard the ol WhipaSnapa an lets boat....

Capt Robert "Earl" McDaniel

228-229-6978

Reds, Sheeps, and Blackdrum still biting strong!

3-14-11

While the winds were howling, for all last week. The Biloxi, Ms. Charter Boat **WhipaSnapa** still managed to get out an catchem up. Had a crew of great volunteers, no not from Tennessee, but from Illinois and Wisconsin still down here volunteering their time and hard work to rebuild this beautiful but yet still struggling South Mississippi Gulf Coast (from Katrina)! Thank You!!!! And God Bless Ya'll!!!!!!

The wind was blowing some 30 mph and definitely not the best fishing conditions, but hey sometimes you just got to go! We just fished a couple hours, long enough for everyone to catch a nice fish or two. Except 1 nice lady that refused to let go of the handrails. Ha! Good time an I Thank Ya'll very much!!

Mr. Kenneth Riggs from Arkansas and a friend. Along with another trip mid-week. Had

bout the same, several puppydrum, sheepshead, with a few nice reds and a flounder. Although neither trip kept any fish, I did keep several and cleaned em up and give to some friends that just can't make it out.... That's why the pictures are down this week. But some great times are being had on the water.. Fishing pole in hand, smiles on face that's the way we reel here in South Mississippi and on the WhipaSnapa.

With everyday booked this week, and even a couple towards the weekend to get out and do a lil chumming for cobia, bull reds, and sharks. It's really getting right. Put up well over a hundred croakers, that definitely gone put some good fish in da box!!!

Load up; come on down to Biloxi, Mississippi jump aboard and get hooked! Bait shops are holding steady supply of live shrimp. That is really helping the cause. Great weather this week and a great forecast for the next 10 days.

Thanks Ya'll for a great week on the water, GOD willing many more to come!!!

Capt Robert "Earl" McDaniel

228-229-6978

Light Tackle Red fish Dominate yet Another Week!

2-28-11

The Biloxi, Ms. Charter Boat **WhipaSnapa** has got on them hard hitting, drag ripping, good eatin red fish yet another week.. Amazing how much fun can be had with the o'l stick and string. Especially when one them dang big o'l reds trying to take it from you... Mr. Ben Reed from up around Jackson, Ms. was in mid-week. He was being treated to lil birthday outing aboard the **WhipaSnapa**, the bite was a lil slow with the bait shops not having live shrimp. Ben stayed patient and kept fishing hard and managed to battle 8 to 10 them o'l drag strippin reds and even mixed in a couple black drums. Mr. Reed did have a few misfortunes that resulted in a good strong but quick battle. Just enough time to get that o'l shit eatin grin. Then they left with some of our string and hook (unattached to our stick). Didn't seem to mind to much (said it was still fun). Fishing around that structure unless you are really lucky or really good going to lose a few.

Mr. Sam and Raegan Rice from over da in that BIG OL ST. OF TEXAS was in the next day. This time with the live shrimp in our arsenal the hit was much more consistent. The Newlywed team put the hurt on some big o'l red fish . We released a few monsters, (over the 30" mark). The team also brought up a nice black drum or 2. It was yet another great week aboard the **WhipaSnapa** with blessing from above.

Neither trip had intended to keep any fish. But both decided to take home a few and STANK DA GREASE!!!

Another offshore blowed Saturday. (2 in a row)!! Fog first then wind!! Really anxious to get in a lil offshore adventure, but mother nature just doesn't seem to be wanting us out there yet!!! Please mother may I?!!

Give us a shout or a click and you too can be enjoying some these great South Ms. boating adventures aboard the **WhipaSnapa Charter Boat**. Rest assured that when you bet on the whipa you will get a valiant effort with kind and friendly service.

Thanks ya'll for choosing **WhipaSnapa** for your boating adventure. For you cobias sharkwhite

trout-ground mullet lovers the water temps did reach 70* this week and should be just a matter of time before we start spreading our wings a lil. Remember to get them children out. They Love the fast action of the white trout an ground mullet (100s) on a short adventure.... Don't Forget they fish FREE.....

Capt Robert "Earl" McDaniel

228-229-6978

Big Reds making Light Tackle Reels Scream in Biloxi,Ms!!

02-21-11

The Biloxi, Ms. Fishing Charter Boat "**WhipaSnapa**" is heating up! Along with good o'l mother nature! (How about this weather)!! Well guess I need to go ahead and get the bad out the way first. I did have one trip with a crew that had fished the WhipaSnapa before and the trip kind of fell apart. Probably should have been canceled, it was really cold and windy. A couple of the guys were eager to get aboard (That WhipaSnapa) for a lil boating. So, we went ahead and tried it. Tried a few spots out of the wind but with no luck, so figured we would have to slip on out an tough it out in the wind but still not much luck. So we threwed in the towel. Fish just weren't biting, at least in the time frame we fished. Hopefully God willing just 1 or 2 more of those this year.

This week has been all good, weather and fish, Friday's crew had a ball. Several nice reds, some over 30". Think we had a fish with every live shrimp we dropped. They were smokin those shrimp and then the lil spinning reels would really scream (Fun I Mean)! I guess with the cooler waters them sunguns were really scrappy. We also had some nice black drum, sheepshead even a nice flounder to complete a Back Bay Grand Slam. Water temp did make it up to 65 this weekend. Won't be long groundmullet, whitetrout by the hundreds and the great bar action for the BIG Female spawning COBIA>>.

Had a very well anticipated offshore trip for Amberjacks, Mangrove Snapper an maybe a cobia scheduled for Saturday and would'n you know dang fog rolled in an messed that up Boy it was Thick, Sorry Guys!

Bout 10:00a.m. when the fog lifted the CEO of the WhipaSnapa Empire decided she needed a lil boating time. Figured I might as well stop and let her catch a few of them big ol drag ripping reds. Sure nuff they were there. In bout a hours time we had a limit of reds. Her poor lil o'l arm and wrist was hurting. It was really great just watchin her (put it on me). She use to not care much for the ol fishin... with the fog setting back in an mission accomplished, we came on back home.

Really should come on down take advantage of this lil slack time, and this warm spurt. I'm needing to catch up, if you know what I mean.

Inshore trips try to keep bout \$100.00 a person and \$200.00 for the offshore. So if don't have a crew call and lets see what we can work out.

Capt Robert "Earl" McDaniel
228-229-6978

Light tackle action: sheepsheads, reds and more

1-31-11

The great weather here in Biloxi Ms. this weekend, was thoroughly welcomed and enjoyed. Warm Temps, calm seas, combined with great companionship and a strong fish bite and on that good looking fish catching charter boat WhipaSnapa the good times were evident by all...

If you haven't tried the ol' sheepshead on the end of a lil light tackle spin cast. Then I suggest you do! What fun we have had! These guys put up a pretty good game of tug of war..and taste great too!! Its been mostly sheepshead, Friday did have 2 reds and a couple puppy drum, Sat, the fellows had a couple them great big ol' mean something or another's. Yea, that means the fish won a battle or 2. Great battles they were though while they lasted .. A couple shoots and dang's followed, then the guys shook it off and were back to smiles and some more drag rippin sheepshead action...

Mr. Read Jordan from Madison Ms. treated his son Jeff from Tyler Texas to the great Whipasnapa lil light tackle catch and keep trip. A nice lively shrimp tossed up close to the concrete structure produced the slightest lil twitch in the line from the ol' sly Mr. Sheep and then a good strong hook set and the rod bendin string pullin fun begin..... Bait shops have been keeping plenty live shrimp, that most of the damage has been done on. These have all been 3 and 4hr trips. Can imagine the fish could have on a full day or shoot just 5 to 6 hrs. probably more than I would care to clean. Na, I enjoy the time at the fish cleaning table (means success). The sheepshead are a challenge to catch lil' tough to clean but the fun and table fair make it worth the challenge. So come on down here S. Ms. and jump aboard and let's tackle a new challenge on the WhipaSnapa!!!! YOU CAN WIN ONE OF OUR GREAT TRIPS!!!! IF YOU WOULD LIKE TO TAKE A CHANCE AT OUR \$400.00 TRIP GIVEAWAY. JUST SIMPLY PUT YOUR WINNER PLUS SCORES OF THE PACKERS STEELERS GAME IN THE COMMENTS PART OF OUR CONTACTS PAGE..(web-site). OR OUR FACEBOOK PAGE@ whipasnapa charters under discussions.....PACKERS 42-24 just that ez.....

chilly or not fishin pulls out da smiles!

1-24-11

Hope Everyone's (2011) New Year is getting off to a Great start!! Prob. been a lil chilly or down right cold!! Burrrr****!! Good For hunting I guess, my hunting just not quiet productive enough... Makes me want to break out a much more productive weapon!! (dat right) Dat lil light

tackle spin cast, Yea; don't sound like a killer but its deadly. We got a few new one's too (from Santa) that have already proven worthy. They deadly I tell you.....they will catch a fish an a smile everytime..

The Sullivan's were in from South Carolina. Mother and daughter crew just in for lil boating(sightseeing) trip. Really great first day on the water. We run out to Horn Island for a quiet tranquil few hrs. on the Island (its one of the most peaceful places on earth). Gave us a chance to try out the new boat curtains on the ride out.. (fabulous)

The Pawelski crew from way up dare in Minn. and some local fisherpeeps did a couple light tackle 4hr. trips around the bridges an had some really good fish. The Main Catch were several 5 to 7lb sheepshead, fun I mean, a mighty fine meal also (very versatile fish). The Pawelski released several, but we cleaned 8 for 16 nice filets they brought over to Shaggy's. Where I hope they fixed'em up right? (let me know). Them sheepshead a few fine puppy drum, a red an a flounder brought back them smiles that I miss so much!!!! THANK YOU SO VERY MUCH!!!! Some bright sun shiny days in between them artic blast make for some fine days on the water...Just have to bundle up a lil..but worth it. Especially now its off season, we as hungry as the fish... THE PRICE IS RIGHT!!!! So weather you do catch an release or keep a few to take to one the local restaurants (they can do it right). (or keep'em all) what ever makes you HAPPY!! Would really like to get offshore on a goodin too, if solo or got a couple that would like to jump in an go play with some tuna , wahoo an amberjack.... Holla, cause I'm sure next month I will have to go.....

Get Your Team together an come on down here to S. Ms. an lets Knock off a lil rust together..... and lets keep the smiles a flowin....

THIS WILL BE THE ONLY CHANCE TO WIN A TRIP THIS YR.

IT'S Time to pick the scores for the superbowl so send yours in by the contacts form on our web site www.whipasnapacharters.com or facebook (whipasnapacharters page)

team plus final score for 400.00 WhipaSnapa dollars.. only 1 winner an 1st one in wins in case of tie. GOOD LUCK

Capt Robert "Earl" McDaniel

228-229-6978

Light tackle Fishing, Reds, Sheepshead, Black drum, ETC...

11-22-10

That darn o'l WHIPASNAPA CHARTER BOAT has taken a large variety of guest (friends) on some great light tackle trips last few days. Guest have come from, Illinois, Ohio, S. Carolina, Louisiana, and others. Have consisted of doctors, lawyers, pilots, chemist, computer techs, engineers and many others. And we have caught just about everything that swims, mostly black drum, strong sheepshead bite also, trout and ground mullet, reds just to name a few. Three very good trips!! As everyone knows it takes good karma and a few other things to make a trip a lil more memorable. And on these 3 everything just seem to click.. We were fishing just fresh dead (SHRIMP) and a few on live shrimp and minnows (peter mullet and small croaker), slow dragging across the bottom in numerous spots along the Back Bay of Biloxi! Lots of hard fighting drag ripping make ya slap your grand maw runs, lead to some great excitement.

Mostly catch and release, but the avg. were 6-12 sheepshead 3-6lb, 15-25 black drum 4-8lb, couple flounder, reds, specks, (white trout and ground mullet) were thick but we were looking

for lil more fight.

I, CAPTAIN; Robert "Earl" McDaniel, would like to thank everyone that trust in the WHIPASNAPA CHARTER BOAT AND IT'S CAPTAIN for there outings into the Gulf of Mexico. It is an honor and a blessing to be able to take so many great people on these great boating adventures.

Thanks everyone for helping out and being patient with fish and capt. sometimes it was a very trying year with the spill and all but hey, soon as we got waters opened back up. Folks jumped right back on and the fishing this year has really been extraordinary!!! So have our guest!! And I believe we gona come out pretty good considering. Right now from my eyes it looks -goodgreat! Fish, water and all looks very good. So look forward to seeing each of our friends with some of their friends back for more WHIPASNAPA adventures next year!!

Have a great Thanksgiving, Merry Christmas and a very blessed and Happy New Year!!!!

See Ya'll 2011

Capt Robert "Earl" McDaniel

228-229-6978

THE Gulf is the place to be!!

11-14-10

Mr. Chet Bigon and Jason got us off to a strong start. In from Texas, the guys boarded the THE WHIPASNAPA CHARTER BOAT and after our lil crisp but pleasant ride across the beautiful waters. IT WAS ON! They wasn't keeping no fish but they was sure catching! Loads of snapper,(the practically extinct red snapper or so they say) couple nice cobia, kings and several other GREAT fighting fish kept the fellows bowed up and under pressure most of the day. Most all fish caught just free lining baits (DEAD OR ALIVE) Good weather, good fish bite, The Gulf is the place to be!!

Went hunting for a couple of days and with very lil movement, decided the Gulf is the place to be! Mr. Don Clark from Ca. brought his daughter (an great lil fisherwomen) in for a short lil light tackle trip Friday. Great trip!! They were also doing catch and release. Ms Amber Clark was cramping and hurting (from catching so many fish) yet still smiling. Think mostly cause she was putting it on dad. At the end cramps and all, she was still anxiously awaiting her pole to be baited an back in the water for more. She caught -flounder, sheepshead, trout, croakers, cats, and some great drum action wrapped us up! All fish caught on them fresh dead shrimp or cut bait!!!!!!

Had couple locals in for lil meat drive on Saturday. And yes, the Gulf is the place to be!! Limit of really nice red snapper, some nice mangroves, (finally) sharks, kings, and cobia, made for a pretty steady blast!!

ONE MORE WEEKEND FOR SNAPPER SEASON!!!

So load up and let that Darn WHIPASNAPA CHARTER BOAT, take you on your Gulf of Mexico Adventure!!

Capt Robert "Earl" McDaniel

228-229-6978

Pinch Me! Very successful fishing continues!!

11-1-10

Early week had the Fossum family from Pocatello, ID. and they started the WHIPASNAPA

CHARTER BOAT (BILOXI,MS) off very strong. Was a catch and release trip which been running quite a few of lately (that's why the pictures have been down). But most decide to keep a few when I tell them have a few places that will cook their catch for them. Been sending most to Shaggy's (Pass Christian) and they seem to be doing a fabulous job! Anyway the Fossum started out with some hot action on some very nice ground mullet, white trout(2 at a time) bout as fast as it hit the water. They were on and we were having a blast! After about 2hrs of that we went to the Island where the sharks and big bull reds kept us very happily entertained with some drag ripping runs and a few mad dashes around the boat for another couple hours.

The Hill and Hopp Crew from Cedar Rapids, Iowa had a blast on a 4hr light tackle excursion also were flounder (couple really nice ones), reds, black drum, white trout, and ground mullet once again made for some hot action. Even had 2 really nice SOW drum for a photo fish! Boy; people can't believe I use the big ol \$3.50lb shrimp to feed to the fish, but hey whatever it takes to catch quality fish for our guest. They took a good amount of them over to Shaggy's for some extremely fine eating!!!!!!!!!!!!

The Mikes,(Westmoreland from Virginia) and (Mong from Gulport) also did the 4hr light tackle trip Sunday and about the same. A lot of hard battling reds, bet we had 10 between 16 & 18" but only 1 over; a pile of puppy drum 4 to 5lb which fight and taste just as good. Really great times, beautiful weather on a great boat with a good fish bite and good companionship.WOW!!!!!! PINCH ME!!!!!!

Times really wrapping up quickly for this fishtastic 2010 season. For the most part I am booked the rest of the snapper days think have 1 Friday left. But a few of the trips or welcoming guest to join so contact us and lets see if we can get you HOOKED UP::::all day offshore for 150 its worth that all day long trust me:::

Capt Robert "Earl" McDaniel
228-229-6978

Strong Fish Bite + Beautiful Sky's = Smiles Galore!

10-25-10

The Butcher family, from Iowa, started off a fine week of fishing on THE WHIPASNAPA CHARTER BOAT. Beautiful weather and strong fish bite, makes everyone happy! Really nice trout, drum (red and black), ground mullet, really bit strong all week.

Mr. Bob Behling, did a lil solo light tackle with us that was a very enjoyable day on the water also.

Two offshores Saturday and Sunday, were just a lil rough! Saturday a crew of Rebels(as in Ole Miss), were in and seas lil rough but fishable, several kings, cobia, red snapper, mangrove, candy snapper, blues, sharks triggers kept the guys and gals bowed up pretty steady all day. Lots of fun, think the gals put it on the guys.

You know last couple weeks we had a few fish breaking 80lb test line. So I put some 130lb on couple 6** reels, with 200lb leader and returned for a rematch! And guess what we still didn't land whatever it is. Had 3 up and almost to the boat and just ripped out. Boy, you talking bout sickening!!!!

Sunday, well let's just say it was very rough! But, Mr. Lambert had come in May and had to release a pile of red snapper and he wanted to take some back this time so we eased out best we could, in 5 to 7' seas. And the rigs in the one area that we bucked out to were just infested with sharks I mean they eat anything that moved in the water, our bait or other fish we hooked and tryed to get in. So as bad as we hated it we had to buck a little bit further. And there we

could have filled two boats with some fine snapper all 12 to 16lbs range, and all on chunk bait up top(free lining). But that was it no bonus fish. Seen one cobia but didn't boat.

Thanks for all the great times!!! Got open spots to fill this weekend;;;

Fishin in October is fishtastic! So moan down South Mississippi and jump in the Whipasnapa Charter Boat! We'll make you famous!!!!

Capt Robert "Earl" McDaniel

228-229-6978

Special fish delivery from above!

10-18-10

South Mississippi weather has been FISHTASTIC! Could not ask for greater weather, smoother water or a stronger bite in the Gulf of Mexico.

The Millers,Hicks, and several other great new friends came aboard THE WHIPASNAPA CHARTER BOAT for some Boating, fishing. Which with us make memories to last a life time.

A really strong bite Monday, Tuesday, and Wednesday. Hit several nice white trout, ground mullet, red and black drum, gaff tops, a few flounders, speck, and a (bat ray on light tackle in the Bay that was a first). But Mr. Miller dominated the fish in a mer 15 min. The trout seemed to be hitting the double tipped jigs bounced pretty quickly across the bottom. And man when they hit you better have a good grip on the pole.(2 at the time) WHOOO HOOOOO

Wednesday, Mr. Perkins (Columbus Ms.) was in for a day all to himself, aboard the WhipaSnapa. I say to himself but trust me,he was not alone, he had something very special with him. We had some just extraordinary fish delivered to us. WOW!! WHAT A BLESSED DAY;;
THANK YOU

Friday, started at 9:30 and the bite started out pretty strong till 11:30 then we struggled but kept fishing hard and managed a few more nice red and black drum.

Saturday, was also a 9:30 start but we didn't even get 2hrs worth just no bite. (at least not the 9:30 to 1 window we fished) sorry guys!! The hardheads croakers and few trout and ground mullet at least got us the basics in so we'll be ready for next time... I know 2 less then standard days 2 weeks in a row;But really the offshore wasn't, all that bad... and really neither was this one;;

Sunday, was one of the most fishtastic of them all--One them days just couldn't draw up any better. Had some great teenagers, a great grampa and couple of middle age ol goats and we had us a tug of war (FIASCO)!!! Lost a few battles prob the biggest of course, but a really nice limit of snapper,(mini sows close to 20lb).. few mangrove, candy, king, a cobia, and a lot more, kept us all entertained. You just can't help not to cheer a person on when he got one them SOWS hooked up. (and they need all the help they can get)

The forecast for the week is 1 foot seas ALL WEEK!! So let's do the darn thang!! Anybody care to go FISHING, GET ON THE BOAT!!!!!!!!!!!!!!!!!!!!

Capt Robert "Earl" McDaniel

228-229-6978

Hero to Zero life of a boat Capt!?

10-11-10

The Lindahls' started us off on the WHIPASNAPA CHARTER BOAT with a nice catch of drum and trout with a high 40 light tackle photo drum. HERO!

Then on Saturday, Mr. Brandon Leverett, and his new member of the Meat Drive Crew, Ernest, returned for some (catch it if it gets close to the hook action). And they had it coming over the Whipasnapa from both sides (thought it was raining fish). Jacks, drum, trout, bullreds, shark, ground mullet, etc..!!! HERO!

Sunday, had an order in for a limit of snapper, and a couple cobia and to be back shortly after lunch(can't miss that Saints game)HA what a joke

.. Can we do that Capt.? Why sure!(I think I can!) Well, we were gone be challenged because it was gorgeous weather, and we weren't going way out,and it was Sun.. (so that meant a lot of competition) Shoulda, woulda, coulda-- the bite on the snapper was simply just nule and void.The current was running so hard that a 8oz sinker was pulling off bottom and takes a pretty good bit of experience to get it relaxed so it don't get hung up in current. We were dropping 1st lines at crack of dawn, so we got choice of wrecks for a couple hrs. before the bugs bunny crews showed up bout 9.We talked to few ol bugs on the way in and seem to have just been one dem days..least early.. but to make a long story short: 8 fish--5 snapper, 3 spanish, 3 dink cobia. ZERO! They were fishermen and great sports and had fun(fishing). But boy them hit me hard. Hey all we can do is dust off and get back on the Whipasnpa head her South and keep on fishin!!!!No1 baby

LOAD UP! LET'S GO!

Have some empty days and spots this weekend sure would like to fill!!You can rest assured you'll be getting 110% from this ol boy. Some say I take it a lil to serious and they prob right put I get paid to put fish in the box and return everyone safely. (experienced fishermen,or not).. but we do still have a good time; set the hook and pull up reel down;;; the more I get of it-- the more I want of it!!!!!! Thanks Everyone for the blessed times!!!!!!

Capt Robert "Earl" McDaniel

228-229-6978

Fishing as good as it gets now!

10-04-10

Mid week aboard that WHIPASNAPA CHARTER BOAT started out Mr. Wayne Joiner and friend Mr. Jerry Rion and they caught several nice drum and a nice SOW drum. Friday's opening day snapper trip fell apart. So a bud and I got us a couple heartbeats and run out to seek and destroy us a limit of Red Snapper. Pretty rough so we wasn't gone play all day, get'um and go. Well by 9am., 3 cobia, 10 snaps and a king. Knot to knock by heartbeats but them big snaps schooled them pretty good. First 7 did the o'l switcharoo to them(fish for wreck). So we had to settle for some mini sows. Sure was fun thou.

Watching folks have that much fun is good for the soul! And guess most of weekend was good for the soul. Had couple o'l school buds in that I haven't seen since '85 or so. And I called them Team Crappie (Sam Testa and Parker Whitworth) GHS (class '81,'82), and tell you they hurt the fish population. Saturday, we left at 3:30pm cause the winds had laid and as the sun was setting we headed back with 7 cobia and a limit of Snapper and smiles on all. I was like man I got to make a living doing this at least 10 more years so save me some. They caught red and black drum, flounder, white trout, ground mullet, snapper, cobia, shark, and so on and on!!!!!!!!!!!!!!

Mr. Kevin and Kyle Arnold spanked the black drum and reds and sharks Saturday. What a

great few days, I have had a blast!!

Thank you God! and All the Team WhipaSnapa's

Now's the time to come down to South Mississippi and jump aboard the Whipasnapa! Fishing is as good as it gets!!NOW!!!!

Capt Robert "Earl" McDaniel

The 2010 Red Snapper Season

9-27-10

Who da thounck it: Friday 12:01 A.M. starts the 2010 Red Snapper Season!!!The WhipaSnapa Charter Boat is (locked and loaded). This is our passion Whip A Snapa!!! been checking on um while out doing the mangrove and cobia thing and tell ya its gone be good. If we can keep some good weather in here for a lil while longer. I'm very excited!! Didn't really think I would see it this yr. Folks have been catching plenty fish but they still hate to throw that big ol' SOW snapper back.

So come Friday, keepsea's!! Plenty cobia and pretty consistent on the mangrove snapper, lane snapper, huge white trout, and a few real nice amberjacks but only one fisherman lately (man enough?) to haul them up!

Mr. Tom Dean from Georgia, brought a crew for our only offshore trip this week good fun--2 cobia, 30 mangroves, couple candy, etc.... on a 6hr trip. Got a really nice 30lb cobia on shear accident. Was funny come fish with me I'll tell ya bout it!!

Mr. Steve Wielding did reel well (Wed), but he had to fish hard. Bite was lil slow. Think he said it was 45 fish day. Not much of a counter myself.(unless getting close to a limit of something). a few, white trout, drum(black and red), ground mullett on a lil 3 hr adventure. Rain got us Sun. Nothing special(no picture fish!) Great times. Thanks to all!! Got a spot are two available on a few trips so if interested. Snapper-\$200.00 per person maybe less. A couple inshore \$150.00. Generally maybe less.

I'm gone try to fish all 23 days of the snapper season now the time to come check us out.

You won't regret it!!!! I know some of you torn between hunting and fishing and well all I can say, need to squeeze a 2010 Snapper Trip in. Them suckers taste good around the hunting camp. So does black drum and reds and trout and some ground mullet. Great Deals on some nice shrimp also>

Love it want some more of it!!!

Capt Robert "Earl" McDaniel

228-229-6978

More Madness and Cobia Happiness.

9-20-10

Them Cobia God's have shined down on that darn WHIPASNAPA CHARTER BOAT lately!

First off to make a long story short I lost most all them croakers that I worked my butt off catching. So it hurt our overall a lil. Not so much Friday, had a pretty good bite, but did not catch but maybe 1 or 2 fish on live bait. Saturday, it hurt us pretty good. Tank at house messed up and

cage in water did the same, lost over a 100 croakers and I was not very happy to say the least. But I took care of that!! I promise!

I stole the show Friday;; figured I would catch a few large white trout and candy snapper for a lil , while everyone was eating a bit for lunch. I was reeling in a white trout felt something heavy eat it! Knew it didn't feel like a shark, but I missed it the first time. Then I felt him hit it again so something was telling me its a cobia so reached an got gaff ready and sure enough just kind of slowly eased it up. The big Cobia surfaced with 2 more with it and I gaffed him and in the boat he went (white trout in mouth). Boy, they really freaked out!!(55lber in the boat) Five total, few Mangroves, Sharks, Kings, White trout couple candy snapper. Had some nice Amberjack (had) just a few on 1 rig an they holding close(to the rig) must be some pretty good ones cause we generally have lil better ratio. But as of now its fishermen 2 ajs 7 got to adjust.... Saturday, Mr. Don Ketner and pals Bruce, and John were in for a day trip. an We worked our lil hinny off hard for about 25 mangroves. They hard to get sometimes very smart fish and a challenge. Bout lunch time with crew fading a lil been kind of rough. Fishing was steady, but hard. still without a ling in the box, figured that was our best option. Just had to find that lucky rig and we didn't look long. Second one was the honey hole must of been 10 and all heck broke loose. All we could ice was 3.

Pretty good box 3 Cobia, 25 Mangroves, white trout(15 or so), 3 lane snapper, couple really nice flounders also.

I'm gone get back out there, get back on that bait and getting ready for next time. Moan join us. Great couple trips, Thanks for putting your trust in us!!

SOUTH MS. AND THE WHIPASNAPA AWAITS YOU... IT'S ALL GOOD!!!!!!!!!!!!!!

Capt Robert "Earl" McDaniel

228-229-6978

Mangrove madness; Cobia happiness!!

9-13-10

Felt good to get that 4 a.m. start again and head out into the beautiful Gulf of Mexico for an all day battle of the beast aboard the WHIPASNAPA CHARTER BOAT. Loaded as we always are, bout 80 select croakers, and 50lb pogeys, knew bait would not be the prob. But 1st stop we topped off the live wells with a few hard tails for the Amberjack. First rig we tied to for a while to do battle, it was on. Let 2 do Mangrove and got 1 dropping a big hardtail for the Amberjack. Well, there was a lot good reports on the front about the mangrove, they here! They Huge! and They Hungry! But after a few hooks lost and baits stolen and several very descriptive adjectives, there efforts had resulted in nothing but MANGROVE MADNESS!!!!!!!!!!!!!!

Meanwhile there was a serious battle on a nice Amberjack on the back. Mike was a pumping and a grunting determined to win and he did! But immediately after, he had to set an take a break (seeing the lil fuzzy stuff). That's when I had to go show the Mangrove crew a pointer or two, boy it felt good a 10 lb Mangrove is one of the hardest hitting an fighting fish I ever battled (lb for lb), They will pop 50lb test on the hook set. Long story short 40 nice Mangroves several over 8 lb, 2 Amberjack, 1 king, few triggers etc. Got a ride to shore aboard the Whipasnapa.

The Dobson's were in Friday, for lil inshore outing. Said if he could get one cobia about 40in. all he wanted. By 8:30 a.m. mission accomplished. Three cobia actually and yes one just happened to be 40 inches. Now we had to get Mrs. Dobson on a few fish. So we run back to bay were she put the hurt on some reds and Blackdrum. They took a lil of the cobia and a nice

Blackdrum over to Shaggy's, let them cook it up. Said it was marvelous!! Thanks Shaggy!
Saturday, 5 guys imitating fishermen(just kidding) were in for a meat haul. And well
sometimes you pull up and holler fish get in the boat and next thing you know they start coming
over the side like magic. And sometimes well you have to work for um(work we did). I mean I
still learn every trip so your not going to know everything 1st time. But that's part of my job and
I love it. They came a long ways in 7 hrs. and they did have a pretty good box of meat--white
trout, black drum, reds, sharks. All fell to the 5 man meat drive crew.
Love it Thanks to all!!!

Moan down South Ms. jump on the Whipasnapa!! And let's go put the (meat in the box)! Bay
full of red an black drum;;;;;; Mangroves, Kings, and Cobia are thick offshore.
RED SNAPPER SEASON OCT 1 THRU NOV 23 so call book now;; booking fast.... from what I have
seen they or BIG, thick an hungry!!!!!!!!!!!!!!!!!!!!!!
Capt Robert "Earl" McDaniel
228-229-6978

Federal Waters OPEN and we went to investigate!

09-06-10

Whatcha know last person that WhipaSnapa Charter Boat got to take out in the federal
waters, would be the first to go when it opened back up!!! Yea, Mr. David Lambert had a lil
inshore trip set up, but with the federal waters opening he decided that was were he belonged.
So, hey lets do the dang thang!!!

Boy, it was great as we rounded the end of east Horn Island, da ol'mighty orange one was
peeking up over the horizon an Capt. was grinning from ear to ear. South bound baby!!
So soon, man can you believe it, just weeks ago we thought it would be years. Our first stop,
second, third, and fourth and so on, found that the snapper were in fine shape. Maybe, just a
tad hungry. Mr. Lambert had his light tackle gear and them snapper was really putting it to the
test. I wasn't the only one grinning ear to ear. Yea; he was having a ball, them snapper had that
thing makin some serious noises, a few was a lil to much, for the light tackle, some straightened
hooks, some got him in the wreck. He said they were fun also; forget some of the adjectives,
well not really, just can't repeat.

Some of the crew, Nathan and Bryant was trying, but they would catch a fish and run over to
the other side and bend over talk to God or someone and back they came. Mr. Billy, well he
would hook up and need help. His shoulder was blowed out and them big ol'snapper was
binding him up.

Bring home box was not all that sporty was a lil'rough and the rest of the crew was green,
so we cut a lil short. Did get nice triggers, tripletail, bonita, missed kings, cobia, huge
tripletail(prob 25 or better). The ol WhipaSnapa was needing that. Absolutely love it, got to get
back soon. So, moan down jump aboard.

Great time! Thanks to all ! Moan; let's go crack em!

Capt. Robert McDaniel
228-229-6978

Hot Mississippi Action on Trout and Drum!

8-30-10

Saturday's trip was a lil wet, but a fairly good bite. Mr. Matt Thomas from Jackson had a lil bachelor shindig going on with a few buds. They put the hurt on several real nice puppy drum, 2 to 6lb. But one fisherman was totally dominated by a really huge something?! Red or black drum probably. Yea! Don't think he even got a turn in, went through the pilings, peeling off some serious drag. I tried to get him to jump in to save it, but he thought nothing of it. They decided not to keep any fish, so gave a family at the dock a cooler full of white trout and black drum. Made their day I'm sure. Sorry no pictures and forgot to get them to sign my guest book (they were ready go to Hooters and I was ready for some dry clothes).

Sunday's trip was one of them folks that booked and then don't show up, don't call or nothing, hate to take free money but hey what else can I do.

Monday, Mr. Bryant Gann a return customer was in with some fellow military guys. And well, they absolutely hammered the big white trout and several nice ground mullet. Then we went out to the Island where we had to tuck in behind the Island a lil cause the winds were up pretty darn strong. And tell ya it was prob the slowest yet on the chumming trick. A really nice bull red showed up bout 30 mins. in, perked us up a lil. We had a few good runs just failed to connect. Then it was pretty much all the wormies after that, did see three lil cobia feeding in the chum.

Anyway, couple really good trips with some wonderful folks! Thanks!

Still no definite word on the snapper season but trout, reds, flounder, drum, sharks etc.. will keep us entertained with tight lines till then.

REMEMBER Sept 5th deadline to get scores in!! Saints go all the way baby!!! 2 DAT

Capt Robert (Earl) McDaniel

228-229-6978

Crack-n-um on the Ms. Gulf Coast!

8-23-10

WOW! Talk bout some therapy! Got on a few trips this week, and well, a massacre has taken place! Yes, that darn WHIPASNAPA CHARTER BOAT done done it boy! You should have been there! Seriously!

O.K. I wasn't gone tell, but all trips we were out at the crack of dawn. (I just love the crack of dawn.)

Lovely folks from Hattisburg,Ms., Morgan City,Al., Duck Hill,Ms., Vancouver,Ca., Sumrall,Ms., Grenada,Ms., and Michigan caught several nice white trout, black drum, sail cats, sharks (black tips, atlantic sharp nose, spinners,)sting rays, bat rays, bluefish, specks, flounders, reds, spanish mackerel, mullet, hardheads, lady fish, croakers, jack cravalle and so on and so forth. And the best one of them all got away! Yea bout a 100+ tarpon. Peeled line from the reel so fast make hair stand up on your head(if you got any)! But we only lasted for one huge breath taking jump and she said, SEE YA !

But, thank everyone aboard got a picture of a life time, not on camera (I wish) but in their mind! Wow! So moan down and let's do the dang thang!

They talking about opening Snapper Season for a hot minute so keep your fingers crossed! Still got alot of good fishing to do this season, the best is yet to come.

Don't forget to go to specials page @ Whipasnapa charters.com (to take your chance to win a \$300 trip) so put your scores in, will someone please send this toward Minnesota, no one giving BRETT a chance!!!

Been a great week,really good folks made for some absolutely wonderful days in the

Mississippi Sound aboard the new an improved WhipaSnapa Lots of good feed back on new boat; THANKS so much!!!!

Capt Robert McDaniel

228-229-6978

Sea trout: Dots are not?

8-16-10

Large numbers of the fast, steady and tasty, white trout(no dots), with a few large, sporadic, and tasty speckle trout(dots) have been transported to their resting place. Compliments of the WHIPASNAPA CHARTER BOAT. Just not able to keep a good hit on them specks. Few here. Few there. But the white trout are running real nice and very steady. If wasn't for a few dots, barely tell the difference.

Most trips lately have been fairly short 3 to 4 hours, 1 to 2 people. Did have a family newly stationed at Keesler Air Force Base. Mr. Joe Palumbo brought his wife and two whippersnappers, Jack and Charlie(3 and 5), for a family outing Saturday. And well the fish were biting, a lil to fast for these 2 whippersnappers. Hurry up reel him in, throw pole down and off to squirt more water, climb in a hole or flip a switch they found. Think they had a ball though. Rain cut us a lil short.

Michael "Fish" Fouiner, long time fish partner of mine, called Sunday morning with an alligator gar he caught while fishing the Bay Tournament under I-110 bridge. Wanted to know if I wanted it. Well, had a few people telling me it was pretty good to eat?! So I wanted to give a whirl. Cleaning it was a lil tough but really not to bad!! The darn thing eats really good, better than alligator for sure! This is a option for makin good trip anyone interested.

Anyway, lost a couple trips to weather and have booked a few for this week and phone and web been pretty active with some future customers. Got a few chomping at bit to get offshore, and think might get a lil opened up for long, they booking like they know something . But, until then hear from a good source that a few cobia out by Islands. Mike "Fish" had 4 keepers, so hey Yesterday, is just that,gone! Tomorrow, is not promised and Today will be yesterday and tomorrow before you know it. SO CALL TODAY LETS GO SEE WHAT CAN STANK THE GREASE!!!!!!!!!!!!Thanks to all:

Don't forget to get your scores in!!!! See discounts and specials! 300.00 dollars off any trip. GOOD LUCK;;;;; Geaux Saints!

Capt Robert McDaniel

228-229-6978

Special day awaits you,in Beautiful Biloxi,Ms. Ready, willing and able Capt too!

8-09-10

Come on down folks, the water and seafood (fish) are fine! And the WHIPASNAPA can catch these little fish, good as the best of um! Man, well lets just say we're not getting out enough. I

know there was a small oil spill an all, but I hate not being out fishing, catching, boating or just enjoying new and old companions for a day aboard the WHIPASNAPA. Seriously, we use to being on the water at least 5 to 7 days a week and would love to get a few more of these light tackle trips in. Really been pretty successful at them, flounders, specks, reds, spanish, black drum, white trout, and ground mullet have all been lifted over the side of o'l Whipasnapa lately. (And brought a many smiles.) (an stank lots grease)

I started this business mostly concentrating on red snapper, and they pinched us so bad on them, got to be really hard to make it. So bought new boat to run tuna trips and now oil is going to hamper that. But the light tackle stuff is what I was brought up on and have really enjoyed getting back to some of it.

So if looking for the good out of this, I have gotten to sharpen my light tackle skills in the Biloxi Back Bay. But still have some sharpening to do so come on down and help me out!! WHAT EVER IT TAKES; LETS GO CRACK UM;

Don't forget to get your scores in(Brett will play) go to specials page for details. your next trip aboard the WhipaSnapa could be on the boat (house)!

Thanks to all that have helped pull us through, come on lets but this tragedy behind us!!!

Capt Robert McDaniel

228-229-6978

More Ms. water open for Fish and Keep!!

8-2-10

Two short trips and finally got the sound opened back up so we can get in the combo deal.

Two or 3 hr light tackle and go out to the Island and play tug of war with the sharks, rays and reds! And it felt good to get back out there.

Ryan Rousselo, from Brandon, returned with another fun crew for a WHIPASNAPA adventure Sunday. A really strong tide in Bay was hurting us a lil to start with but did manage a few trout and hooked a couple spanish mackeral and the wildly acrobatic lady fish, which is very fun on light tackle. Probably as fun as any, boy they can really make um sing.

With Bay being a lil slow we decided to head on take a ride, first reef behind Deer Island was the hot spot. And the large white trout really nice trout I mean really nice was hitting and it was on. Ground mullet were hungry also. Before I knew it the bucket was runneth over. After a couple hours of steady action, they had landed 70sh or so good eaters with another 25 or so we used for bait. We left them hitting, they were ready for the Island run, turn on air for minute. (if you know what I mean). We were just chumming for 10 min. or so and a couple of real nice black tips and spinners were 1st. but managed to set theirself free. Landed several Atlantic sharp nose and then the back breaking ray bout did um in, had to turn on the air again! So back to Bay where current had slowed and finished up with a few nice black drum.

On the couple small trips we had a couple reds, black drum, few specks and white trout.

Looking for them to loosen the reins a lil bit more soon (open more). But I sure would like a lil federal water! Let's hope and pray!! Sure am itching to get on out there. Think the Whipasnapa needs it too, where she can get aired out. If they do; should be good. There is no report of any damage to any finfish.

So let's go get'um

Capt Robert McDaniel

228-229-6978

Flounder tops Biloxi Back Bay fishing report.

7-26-10

Man them darn flounders fun, Yea! eat good too, hun; Can't complain about the o'l flat fish, they got it all going on!!!!

Early week they were on, had that early morning high tide and the flounders were moving up close to shore and on the flats to feed on the falling tide. And the WHIPASNAPA was jaw jacking um, 32 or so in 2 days, with a few nice trout, did the Bay Slam one day, Reds, flounders, and trout. All on the pogeys which is very plentiful right now. They opened up the live baiting for shrimp also, but if got them pogeys they as good as any. Saturday's, N. La crew got on the black drum 20 or so good eating size, like the shrimp for them, and a couple reds, but where undersized they seem to prefer the shrimp also. A few nice trout, specks, and whites, and one flat fish. Pretty darn good bite all week. Thanks to all!

Bay should continue to be hot, as the weather! Islands opening up for some catch and release. Hear the reds are pretty thick out there still waiting. Maybe they will give us a lil federal water to go get some fall cobia, groupers, kings, etc....?!

Come on load up for your WhipaSnapa Good Time: Just a lil reminder that summer almost over for the kids and we still catching some pretty darn good fish in the Bay, and should just keep getting better, Red and black drum, flounder, trout, etc.... Catch and release at Islands. Say some test should be back next couple days and may open up a lil bit of federal water too. So maybe we can get in a few fall cobia runs which was fantastic last couple years. Keep us in mind and if possible come on get on the WhipaSnapa and lets do the dang thang.

Gone do a \$300.00 trip giveaway!!! For the Saints/Viking game. Guess the score and win.

Just go to our contacts page to send in your guess!! (Can use this year or next.) Just send in teams with your score.

Deadline Sept 5, 2010 and like with the super bowl 1st one in gets that score so get them in early but if you pick one already taken we will let you know so you can try again. only one guess per household please

GOOD LUCK!!!

Capt Robert McDaniel

228-229-6978

Still fishing! Biloxi Back Bay getting mighty lively!

7-19-10

Took a lil minication this week ans of course missed a trip or 2, kid's had an invite to tour Ms State University. Did that an spent day or so with mom in Grenada, an swung through ol pops in Neshoba Co.

Went boating on lil' WHIPA today and set out the crab pots, been tasting some good ol'boiled crabs. Decided while I was out to take a couple of fish weapons with me and the brill net. After putting out crab pots, went over and found one factory working and with one throw the net started swimming off with the pogeys (oh yea). So off to do lil fishing, wanted to fish some new spots, went to old reef by mouth of Fort Bayou.

As I approached the reef I could smell fish and could see several boils on top. Threw the anchor and it was on, as soon as the pogeys hit the water BAM! For about 2 hours I sat there and reeled in fish as fast as humanly possible; specks, white trout, and some drag ripping gafftops.

Most of the specks were 12 1/2 to 13 1/2 in. Just kept a few and left them biting. On way back, decided to stop try one more lil spot. Old discharge pier close to ramp and soon as my free lined pogy got up next to the pier BAM! Red fish, caught three, one was tagged and was the only one to make the 18in cut the other two were just a lil under size, but a blast on the light spin weapon.

Boy, tell ya they keep this oil shut down might open up lil bit more water. But if not man the Bay is alive and well! We did reel well in Bay last year especially Aug. and Sept. Sure would love to get in a snapper trip!!!!!!!

Come on down South Mississippi and step aboard the WHIPASNPAPA! That's all you have to do.

Ready to fish; tired of fighting with those people that SAY they gone make it right; bs from the bp; so if you need a cut especially for the kids, call us an LETS GO GET UM!!!!!!!!!!!! That's what we do best:::~::~:

Capt Robert McDaniel
228-229-6978

Fins to the left; Fins to the right! Thank You Jimmy Buffet!!!

7-12-10

Well don't seem like they want the WHIPASNAPA or the lil'whipa to participate in helping clean up their little mess, so guess we'll keep on fishing boating and enjoying our lil CHEESEBURGER IN PARADISE, only running North of CSX railroad bridge which is the Biloxi Back Bay.

Don't make much since to me that fish on one side of bridge is contaminated and not on the other but hey I just try to obey the rules not make them. So lets do some catch and release or eat at own risk. NA! if they have the oil in them we would be able to smell it when cleaning'um up!

Ran two small trips this past weekend 1 crew from N. Georgia and 1 from Tenn. Both just a good day, just enough to get by on. Few specks but most under size couple nice flounders few white trout an Ground mullet, lady fish an a nice trophy Black Drum or two with a few eater drum.

Some really good fishing fixen take place in the Back Bay. Got a big flush with all the rain last week, but the salinity and the fish are returning. Should be able to get on some specks, flounders, reds, white trout, ground mullet, black drum, spanish and lady fish have been hung coming in also.

So hey let's do the dang thang! 1/2 day 300 full day 425 covers 4
Lets get the kids out summer break just about over; Thanks to all:::~::~:

Capt Robert McDaniel
228-229-6978

Despite very limited waters more trophy's still hitting the Deck!

6-28-10

Started out the week with Mr. Jeff Greenhaw and crew from Fouke, Arkansas. Sharks were on the agenda, but a good rain shower was lurking just offshore, so we stopped and spent a couple of hours on some light tackle action. It was a pretty darn good bite taking place but the rain kept spreading and it finally got us, it was moving very slow and getting bigger so we opted to just try the sharks the next day.

Started out Wednesday morning on one of my favorite reefs and nothing was happening so on to the chumming spot, and even that started out pretty slow, but we had to tell ourselves "chum and the sharks will come". And sure enough took about an hour or so and started getting some good black tips. And all of a sudden this slick that was just to the West of us started moving our way. And I about cried, yes it was the oil! Tar balls had us surrounded! That pretty much ended that day (sorry).

Friday, Mr. Mickey Leflore returned with a young gun, who he wanted to experience some of the action he had just weeks prior. And I tell ya they put it on'um pretty good. Nice trophy black drum, reds, specks, and flounder.

Saturday, we were limited pretty much to the Back Bay. And Mr. Walter Ketchen from Jackson, brought 3 buddies from Brandon, Ms. We had a pretty tough day, fished hard and caught black drum, specks, white trout, ground mullet, reds, and flounder, but only 1 or 2 of each.

Sunday, we were back to reeling'um in, Mr. Josh Windham along with Tom, Ben and Tiffany Windham from Brandon, Ms. had some pretty good fish. Mrs. Tiffany really showed the boys a thing or 2! Red and Black Drum Speckle trout, Flounder and several nice White trout and Ground mullet all surrendered to the Windham crew. They were going to take some of their catch over to SHAGGY'S and have it cooked for them. (let me know how it was)

Thanks so much for the good times! Oil is here and it is heart wrenching. I felt obligated to try in get everyone that was booked in if they were coming an Sunday was the last trip on the books. Gone try very hard to go to work with VOO program so maybe the last report.

Thanks again to all who trust in the Whipasnapa for your good times boating! Guess gone have to put the new WhipaSnapa in that mess to survive an when that happens no more trips. Thanks again to everyone for all the very thoughtful concerns. And for coming and supporting us anyway!!!!!!!!!!

Large Sharks attack WhipperSnappers off Biloxi, Ms Coast:

6-21-10

Mr. Reeves from Brandon, Ms. called on the WHIPASNAPA this week. Capt. I got a couple whippersnappers that want to pick a fight with a few sharks. Think we can? Why sure! Probably need to start lil early cause battling Mr. Shark mid day in this heat could be dangerous.

We started out at dawn. Stopped at bridge for about hour, where Mrs. Reeves landed her a nice red. They also landed some trout, drum, croakers. Then we ran to the reef outside Deer Island where a good bite on white trout and ground mullet was on. Them ground mullet fight good, taste good and make a excellent bait also, especially for the shark and big reds. Got enough for couple good fry's and a few extras for bait and moved on to do the shark thing. About 20 min's. or so on the chomper and things started happening. The 1st few were the

Atlantic sharpnose which excited them pretty good. But we needed some a lil bigger. About an hour had passed when got a couple them alarming clicker runs, where you know its something big, but no connection. Then finally the fight was on. And it was a good one. Oh Yea! now that's what we looking for . Before we could land that one another rod went off and yes we have ourselves another fight on and just about time we thought had everything under control yet another one went off. And this is where things started to get a lil hairy, cause Mr. Garrett the youngest whipper grabbed it and didn't take long and in come the white towel. Man this just a lil much for me. Finally got the first one in and Taylor had to go straight into another very intense battle. All 3 sharks (70 to 90lbs) eventually winded up in the bottom of the WHIPASNAPA awaiting their ride to shore and their place on the grill. Mr. Taylor says marinade that SHARK in Italian dressing and red wine vinegret over night and yum yum yum!

Thanks to all great time: never thought would just be reporting on 1 or 2 trips a week in mid June. But canceled 4 offshore trips so felt pretty good to pick up couple. Run some surveyors out to Horn Island.

Come on down keep this Capt. boating. Ain't to pretty but we sure looking good!

Capt Robert McDaniel

228-229-6978

Mom goes fishing and a Back Bay light tackle EXTRAVAGANZA!

6-14-10

Well, been fishing a long time and had a chance to do something this week that I never done before (unless I was to young to remember), my mom jumped aboard the WHIPASNAPA, said she wanted to go fishing. She tells me right off "I'm not getting up to early!", and "I'm not going to be out in that sun to long!" and "I want to catch one of them big o'l fish that been seeing on web-site!" Boy; you talk about pressure!!!

Got about 3 hours out of her in which time all demands were accomplished! And she handled that stick like a pro I tell ya! Caught fish on about every cast. She put the hurt on several trout, drum and then come her o'l big fish like been seeing on web-site. After about a 20 min smack down performance, she was holding dat sucker up for her photo. She said hers was BIGGER than all the others. Sure was mom!! Love Ya!

Mr. Mickey Leflore probably the Snapa's most long time fishing partner, came in to town. Mickey's been fishing with the Snapa from the 1st year booking 3 or 4 yearly, but they have all been offshore snapper trips. and was really looking forward to the TUNA trips this year. Capt. he said I've never got to fish light tackle with ya, since the rest of my crew not going to make it for the offshore trip and its closed anyway, lets leave the big poles at home and do some inshore fun!

I love to eat fish and gal does to so guess better try to put some up. We did release a few reds and black drum just to keep the good karma going. Tried to let him have all the fun, but I finally had to jump in there! We boated 6 nice specks, 6 slot reds, NUMEROUS really nice white trout, ground mullet, 25 or so black drum and as we were wrapping up our 5hr. Back Bay Extravaganza we were short a flounder. All of a sudden a big flat fish was on hook approaching the net an he got away(6 inches from the net) would have made a great day even greater. Great time! Thanks so much to all! Hope to keep boating and catching!All this action is happening just minutes from dock barely have time to even plane off. All fish are in an biting--

specks, reds, spanish and more. An this light tackle stuff is really fun, just ask ol' Mick. The oil is getting close and scary, but hey it's open North of Island chain for now so moan aboard. Let's boat!

Capt Robert McDaniel
228-229-6978

An Absolutely Fintastic Couple Days Fishing off Biloxi, Ms. Gulf Coast! 6-7-10

Well, with a whole week of long and well anticipated WHIPASNAPA snapper trips shot. At least a couple of die hard's just wanted to still get away, and have their strings pulled.

Started out Wednesday, with Chad Flanders from Florida and Steven Burson from Tupelo, who caught a couple sharks aboard the WhipaSnapa last year and said it was probably his favorite fish cooked on the grill. Think we can catch some Capt? Absolutely!

So I put the number 1 WHIPASNAPA inshore trip on him, 3 hrs. light tackle, 3 hrs med./heavy.

Ms. Abbi Galloway from Tupelo, who came along just to kinda check things out. Said she had never caught a fish, well it didn't take long for her to land the 1st and with many more to follow she said this is a darn blast! They hammered the trout, ground mullet and croakers. We moved on to the Island for some chumming, where it did not take long for the sharks and ray's to move in and around the boat we went. Some of the bigger sharks took um around 4 or 5 times. Their poor arms were hurting and shaking so bad could hardly hold fish up for a photo opp.!

Run Mr. Bobby Cleveland of the Clarion Ledger and some lovely ladies from the Sun Herald out to Petit Bois Island Thursday for a lil' photo opp., couldn't fish but it was sure tempting. (see clarion ledger for more on that)

Saturday one of the Snapa's most highly regarded customers Mr. Garrett Hill who books probably 4 a year and keeps a steady flow of new WIPPAS coming, said they wanted to battle some them big sting rays heard they were bad BUTTS! Think we can catch some of them Capt? Absolutely! So once again the 3 hr light tackle and 3 hrs med/heavy was in order. First we stopped at the bridge and they put the hurt on some black drum, which (to me and them too now!) eats as good as the darn red snapper! It's true!

But anyway, trout, red fish, croakers, black drum made some pretty darn good steady action. Even got a couple nice photo drum and on 12lb spin tackle trying to keep them out the bridge it is nail biteing to say the least (see photo gallery). On the chumming, well, trust me they bowed to the mighty string ray that is one bad son of a gun! They landed a couple 140 to 160 lb rays it wasn't easy but they hung in there and did it . One took more then an hour to get it up in the boat.

As we ended the day you could cast your live croaker(which we keep plenty of) just hold the pole and the big red drum were hitting like trout or something double hook ups, and as soon as it hit the water: what a bang for your buck hun!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Thanks to all! For depending and trusting in the Snapa for a day on the water and to put you on the fish regardless!

Just hoping to continue fishing and spending the day on the WhipaSnapa, catching what ever is brave enough to bite the ol mighty hook. So far still able to fish inside the Islands were its as good as ever flounder, trout, reds blackdrum and its spanish time also which on light tackle is a blast! so hey; come on down load up and let's do this dang thing!

Capt Robert McDaniel
228-229-6978

Gotta love that grouper! Offshore and Inshore bites strong this week! 5-31-10

Happy Memorial Day!

Just the way that Darn WHIPASNAPA likes it! Yea, the fish God's shined on us pretty good this week, in 2 offshore fishing trips (in very limited waters) boated 16 GAG groups with 11 making the trip home aboard the Whipasnapa, all 8 to 12 lb range. If ya know what I know that's some fine grub. (Thanks for tipping the Capt. a filet!)

Guess we caught about 3 to 4 off them extinct red snapper to every 1 grouper (all released safely), all 10 to 15 lbs. Went through about 100 croakers, an 50 lb of poggies but hey got a couple 100 more on stand by. Throw in a few really nice mangrove snapper, some sharks, kings and few trigger and we had our self a couple fine days! Even thou we could not keep the red snapper, box looked pretty good. One was suppose to be a tuna trip and of course those are out. Thanks for coming anyway, and take care of the Snapper Hickey's (little bruises under the arm).Ha!Ha!

Mrs. Richard brought her two young boys over and they put a hurt on the trout and ground mullet. They really had a ball with a fish on just about every cast an even a few doubles. An of course I love taking the young whippas too. So did the Rommel crew. Another father son crew from Washington St.. They had a few bonus fish, with a fat flounder and a really nice black drum for a picture fish. Had another Big ol' drum but our light tackle just couldn't quite keep him out the bridge!

Looks like going to be alright on the snapper. Oil still missing us here on the Ms. Gulf Coast. But boy its still very depressing what has happened out there. But hey lets enjoy while we can. Got a few week / days open if want jump aboard and see what you can battle and load up on the WHIPASNAPA. She feeling better this week smiling an purring like a kitten.

I love being on the new boat think you will too! So give us a shout. And let's do this Damn Thing!

Thanks to all!

Capt Robert McDaniel
228-229-6978

Fish are biting and water looks good! 5-24-10

Fish are biting an we are still oil free, but the cancellations have kept that darn WHIPASNAPA grounded all week, every time I walk by it's growling and looking mighty sad, spending way to much time on land, think she taking it personally.

Been taking care of a lot of bull crap with the Butt Plug oil company, I mean bp, but very much over that an maybe with a lil luck we'll get her back out there this week, and let the good times roll!!!

Snapper season is still on for the 1st of June and is suppose to close the 23rd of July. The only thing we not able to run is the blue water trips an prob gone run a trip or two over off Florida coast see if we can find some tuna, wahoo over that way.. Trout, Flounder, Spanish, sharks, cobia, reds, kings, grouper, snapper, pompano it's all ready an available to be caught, packaged an shipped so jump aboard an lets get That darn WhipaSnapa back on a plane an headed south were she belongs!!!!!!!!!!!!!!

Capt Robert McDaniel
228-229-6978

Cobia, Reds, Sharks, Trout and Ground Mullet catching a lift: to the table! 5-10-10

Started out Thursday with Mr. Jack who said he would like to take a fish off his bucket list. Cobia that is. Darn WHIPASNAPA, likes a challenge, if you don't mind busting a few sharks we can prob make that happen. We started out on the oyster reefs catching a few extra baits (croakers) the fun to catch, and wonderful eating trout and ground mullet. As for a frying fish just as good as any. After 30 or so trout and a mixture of croakers, gaff top, ground mullet, off to the bar we went. And it prob didn't take maybe a hour to hour 1/2 to scratch that cobia off the bucket list. Ok I'm good, but its not even a keeper, yea; it was the first one not to make the 33 fork rule. But we give it a few more min, the chumming gig was not their cup of tea so we went and dropped a few baits on a couple wrecks close by were not much was happening did get a grouper etc. So back to the oyster reef to finish off our bucket of trout and really fat ground mullet. 120 or so filets is plenty, left them biting.

Friday picked up a short chumming trip. The Parker brothers i picked up at the ISLE OF CAPRI just wanted to fight some bigger stuff, not keeping anything just want some good pull your string extra tight battles. First stop was the Isle of Capri bar after maybe 40 min. one pole went off then another, as they were fighting those two I looked and there swam a nice ling right off the back corner the boat. Well, guess I will have to do it. Flipped him a lively croaker, must have been just what he was looking for soon as he ingulped it and turned I set the hook. He did one them tail walks and it was on, a triple hook up. oh yea, thats what I'm screaming. Turned out 1 had a jack crevalle the other was a shark which tickled them pink and of course so was I. After we managed to get everything in and straightend back out high fives were in order. After about another 45 min. or so, again one pole went off then another as they battled theirs another went off, well guess I'll have to get this one. Again a triple hook up they both had sharks mine was a nice red. After a few drag ripping runs and cross overs we managed to get it all straightened out, landed the red and just released the sharks a nice blacktip and a spinner, and of course another round of high fives took place. Pretty steady action all morning. Some really big sharks, cobia (27lb), reds(20ish).

Thanks to all; cancelled two days offshore cause of the black gold.

Yea, this really burns my ---! You know its all about greed. There's no way this should be aloud to happen. They could have spent some of them profits to be prepared for something like this. So far we are all clear no signs of oil. ANYWAY fishing is good and they actually opened up a lil more water enough to get out to the wrecks and rigs just beyond Horn Island and pick up some grouper, cobia, kings etc. I'd much rather work for you guys, so come on jump aboard. LETS GO GET UM WHILE WE CAN::::::::::

Capt Robert McDaniel

228-229-6978

Smiles to tears along the Gulf Coast! 5-3-10

Offshore fishing is closed for now but inshore fishing is still open and doing great Started out Tuesday with Mr. Chet Bigon an Nicki, who had an order for some sharks and a ling. And the WHIPASNAPA likes it when a plan comes together. Weather was against us starting out, the wind howling out of the northwest, so we went down the back side of Horn Island and got behind the trees where it was not to bad once the sun finally came out!

First battle was one of them drag ripping rays, boy I tell ya, I was steadily tightening Chets drag and that son of a gun, was steadily leaving the scene and I mean leaving fast! And after a short but fierce battle the hook suddenly came out. After a few min o'l Chet said "I'm really glad that happened hun?" Yeap! Next was a couple black tips and spinners, then the reds and last but not least came the ling about 25lb.

Wednesday, nothing but sharks, all shapes and sizes, man they ate us up. Made for some intense battles, and was what we they were looking for. Hadn't seen to many till then but they were thick.

Thursday was going to be a lil scouting trip for the 3 day tournament with Mr. Jimmy Davis exterior trim I mean drum specialist. But the winds were up again, so we just stayed in the Bay, and did battle with some nice black drum, ground mullet and white trout.

Then the bad news...the 3 day Gorenflo Cobia Tournament was cancelled do to weather! First time since I been fishing (1993)that they cancelled, and I'm sure everyone's heard what happens next.....

Just terrible, I'm really scared this might be, well lets hope not. Come on; someone get this thing shut down! PLEASE AND HURRY!!!!!!!!!!!!!!

I love what I do and the thought of not being able to do it for some time makes me tear up. LOVE YOU ALL AND THANKS SO MUCH.....

Let's keep all the Gulf Coast in our thoughts and prayers !!!!!!!!!!!

Large Black Drum, Cobia, Red Drum make smiles Biloxi style! 4-26-2010

Monday, the wife and I got out for one of our good o'l Monday's aboard the WHIPASNAPA,(her off day and mine).Know summer close when she gets in. Suppose to be lil bait and crab run,but she decided to do battled with two fish while I caught about 12 to 15 croakers. But her's was about 25lbs and 35lb, one got off after a good lengthy battle, she was not real happy. But she put the smack down on that second one. I'm getting my picture took with this sucker!

Thursday, had two of the four fisherman that was gone fish the WHIPASNAPA for the Gorenflos tournament,in for a lil scouting trip. Started running rigs to east with not much luck,the water and weather were absolutely beautiful! But no cobia, few kings. Made our way to Chandeleur Island around lunch time. Had a nice ling come up after just 20 min's or so.(chumming the bar) Buddy and Warren swung at him four-five times, not much luck fish

picked up the ells they were holding and they were a swinging but no connection. Winded up 2 for 3.(32lb and 28lbs)

On Sunday Kellum's crew wanted one of them good o'l just go catch some stuff trips. Spent about 3 hours small game fishing. We loaded up on croakers, ground mullet , nice flounder, several white trout. Then went chumming, first up was two big battles with some large string rays (3 men to wear one fish out battles) so they was nice an warmed up for the reds. 3 for 5 on the red drum 2 came off right at the boat! Lots of smiles! Thanks, so much to all!!!!!!!!!!!!!! Was really looking forward to the one day shoot out Saturday!! But the weather was so bad they had to cancel it!! Well we still have the 3 day to look forward to (keep your fingers crossed)! Wish us luck! With some decent weather think gonna be alot of fish caught. Just need three good ones, or the Randy Who!!!!!!!!!!!!!!

Red drum and sharks have really been consistent. Nice flounder wts and gms steady, so moan down; get in the WHIPASNAPA! See what you can catch!! Have another great special for the cobia lovers like myself. May Special see Discounts and Specials

Capt Robert McDaniel

228-229-6978

Cobia,Reds,Black Tips, and more! Pulling Strings in Biloxi,Ms 4-19-10

Run 4 half day chumming trips aboard the Whipasnapa, and a light tackle, Monday's bar trip was about the 1 that didn,t ride home with us, a possible Randy who! At least 80lb. Yea boy huge cobia came up charged a bait right behind the motors, but guess it didn't smell or look just right and he was down an gone. But, about 5 min's. later the balloon line furthest from boat went off. We just knew it was him!

Hearts pounding away, but not, it was one about 30lb. That was actually the last cobia to ride home on the Whipasnapa Charter Boat this week.

Tuesday Rick from Detroit just wanted a couple hrs.for a shark, or anything. Did manage a few black tips and a red drum.

Dad an couple of uncles were in for some ground mullet and white trout Thursday, an we hammered 'um pretty darn good considering the winds were howling. Probably 80'sh half ground mullet as big as they get. All the whitetrout were nice also,Uncle James battled a nice black drum right off the bat for a picture fish.

Saturday, Mr. Billy Johnson an family with the fishing magician Kameron, this lil fellow can put the hurt on 'um an don,t take long to tell he absolutly loves it. Reds, black tip, white trout, ground mullet big string rays all hit the deck.

My son's birthday party went for a few hours Sun. about the same, reds, black tips and rays. Lots of good times! Thanks to all!

Cobia let us down a lil this week but a wonderful week, love getting Dad back on the boat. He was mostly checking on the New Whipasnapa. Seem to have approved. So did yound Mr. Kameron,very great young gun, but fish beware. Plenty of good fishing should continue. Wish us luck sat for the cobia shootout. Moan down; get on the boat, lets go get 'um!

Capt Robert McDaniel

228-229-6978

Biloxi fishing: Grouper on the Wrecks! Cobia on the Bars!

4-12-10

What a week, that Whipasnapa been slaying 'um son!

Mr. Champion and sons came Monday and got on some red's about, 45lb black drum and a bucket of white trout and ground mullets.

On Tuesday Mrs. Angie and 5 crew, well we just got in a couple hrs fishing 101. Casting, reeling an anything, was a bonus. We did manage 25 or so white trout and ground mullet's etc. Wednesday, Mr. Cunningham and sons wanted to go offshore, it was a lil rough to say the least, we did make it out to the wrecks, right behind Horn Island, 8 miles or so, first spot for sure. looking for some groupers to feed some nice golden croakers that I'd been saving up. Kind of tough to keep your feet under ya. We did manage 5 groupers, a king, several endangered red snapper and some triggers.

The fellows took the grouper filets over to Shaggy's and had them cook it up. Said it was fantastic!

Friday I invited them to go check the chumming on the bar, action out, much better day, we spotted 2 actually had one take a bait right on top 5 ft from the boat 1 was just a drive by! But enough to go back Saturday, landed 4 got to keep 2 (1-45:1-24). And couple more drive bys we saw 6 total. They are here!!!

More cobia next couple weeks, ground mullet and white trout should stay strong. Blacktips should show this week, reds will be running with them also. Booked up for the 1 day shootout and the 3 day Gornflo's tournaments.

A good trip would be about 4 hrs on the wrecks for some grouper and about 4 hrs on bar or running around for the cobia!! Moan Down!

So let's go!

Capt Robert McDaniel

Whipasnapa Charters

228-229-6978

Major Fish Kill in Biloxi, Ms. 4-5-10

That darn Whipasnapa Charter Boat's to Blame!!

Sorry!

Run Wed., Thurs., Fri., and Sat., all short trips with young kids, 3 to 4 hour trips. Really a strong bite all week mostly all ground mullet, white trout and pretty darn good size. A few small white trout, but most were really nice. The ground mullet were very fat. We got about 50 to 60 each trip (some a few more ground mullet than white trout, some a few more white trout than

ground mullet.)

Wednesday, had 3 flounders as a bonus. Thursday, had a few speckle trout and Friday had a few large black drum as a bonus, for Saturday it was the sting rays.

Going to try and get on some more of them specks this week, got some really nice croakers put up.

Pecan trees are budding and the hardheads are here so you know what that means!? COBIA ARE HERE!!! Got an offshore Wednesday and Thursday should produce a brown fish.

Still need a couple of people for the "put together offshore trip" 2 on list need 2 more.

Anybody interested give us a shout.

Got some good chum and bait put up for the chumming trip so let's go get'um!

Capt Robert McDaniel

Whipasnapa Charters

Get the grease HOT! An STOP the wind PLEASE!

3-29-10

Looks, like the ground mullet, white trout are in to stay for a while.

Ran over to Cat Island Friday, with a couple from Texas and I tell ya the ground mullet and white trout were hungry, eat just about anything that hit the water.

But my crew said they were fun to catch but they didn't eat those?! So, that's o.k. I know someone that does (yum! yum!). There was a few nice speckle trout mixed in with the whitetrout, and a few more really nice ones on a wreck outside the island. White trout a lil' small, but the ground mullet were just right. swung back to ship to look for the reds an we seen several but they were all singles, no big schools. Needed to be wadeing, think we could've got a few but in the boat we were spooking them.

Got blowed out the weekend. Specks should really turn on as the weather looks very promising. Be nice to get on them trout for a few hours before we go on the Randy Who Hunt, !(106.9lb new state record cobia!) see discounts and specials page.

Short pants and barefoot, that's what I'm screaming: ! Let's Go Get'um!

P.S. trying to put together a 15 hour offshore trip got 2 people on waiting list need 2 more.

Capt Robert McDaniel

Whipasnapa Charters

Spring Breakers take mixed bag on the Gulf Coast!

3-22-10

The Islands were HOT! this week. Horn Island with the ground mullet, Ship Island for the reds, Deer Island with the white trout and Back Bay for the sheepsheads and more reds!

March madness has been in full strut aboard the Whipasnapa, fished everyday this week.

Fishing heating up, can't say the same about the weather?!

The ground mullet are a little small but tasty and plenty of them, glad they finally showing up.

White trout at Deer Island, about the same as mullet, small but good. Quite a few reds in Bay, 18

to 22in range, which is the good eating ones with the sheepsheads. Large reds at Ship Island has been consistent in the shallows.

Had two trips with the young anglers, the ground mullet and white trout got them going. Fishing good so lets get them kids on the boat. Not many picture fish this week, lost 2 really nice black drum in Bay that almost got their picture taken.

Got another week to take advantage of the March Madness special, the reds should hang in at Ship Island with a consistent bag of white trout and ground mullet

Red fish and Amberjack Top the Report out of Biloxi, Ms 3-15-10

Had a group of young guys in from Ole Miss on Spring Break. The head honcho of this pack, likes his string pulled regularly and frequents the Whipasnapa Charter Boat for the cure.

Well, I tell ya good thing they left theirself an extra day, which is a really good idea atleast in the spring, even if just going inshore, cause Saturday was just howling(windy). Sunday, we did get to the Island for a lil' before the wind picked up really bad again.

Don't know how many red fish we caught but it was alot. Got offshore Monday. Fairly strong north wind, about 3 to 4 ft. seas suppose and that new boat trucked us right on out there all dry and comfy.

There was a really strong current, I mean really strong, so couldn't really do nothing on the good eating little snapper, did get a couple candy's and trigger, and had a couple of nice grouper.

We had a little trouble getting hardtails but once we did, amberjack madness was happening. Everyone finally landed one (largest one was 46 rest all high 30's) threwed back one a piece also. Funny, them damn things will hurt ya!!!

Found some really nice red snapper, couple almost SOW'S! 20lb on that new Butterfly Jig, they all shallow hardly any in the deep water.

Great time!

Capt Robert McDaniel

Att: Fishermen, Campers, Outdoorsman and Spring Breakers Biloxi Bound

Wow! Got to take one of them o'l butt dragging when ya get back home trips. It was an 18 hour bluewater Whipasnapa run.

Struck out with the tuna,(yea bummer) fished most of night 8 p.m. to 4 a.m. nothing. Not sure but we didn't do something right. Got some really nice amberjack to come home with. It's prob the funniest fish to watch being caught. Had our limit with a 4 man team, 40lb was the biggest amberjack, but I promise ya we had some much bigger or just a hell of a lot meaner.

Lots of good eating--pink snapper, silver snapper, spanish mackeral, candy snapper, white trout, but no cobia yet! Boy, seen some really nice looking water around the Islands, looking like cobia water to me.

Check out our March specials! (April special will be for the cobia lovers.) 60 pounders will be here soon! Weather getting right!

Mississippi Gulf Coast Boat Island and Rig Bound

Ms. Gulf Coast fishing finally getting to Barrier Islands and rigs a little. The Whipasnapa Charter boat got to get out and go to Ship Island, Friday Feb. 26, 2010. Went to investigate the Island a bit and scooped up a limit of reds plus a couple. The over 30 inch ones was no problem to find but, on light tackle a slight problem. The under 30 inch was a bit harder to find.

Found a couple nice sheepshead on a wreck close by, also was holding the two under reds for the limit.

Sunday the 29th, run out to the rigs finally, a bit chilly, so got a later start than I like. An the winds where up a little that morning, so had to take it easy to keep from getting wet.

First stop was getting bait, but you would have thought we were inshore, white trout two at a time, croakers, reds two at a time, and the old hard head catfish. Had to catch most everything on the big 9oz butterfly jigs, and they can wear you out, but quite worth it!

We also caught gag grouper (12 to 14lb), small amberjack, lesser amberjack, speckle hind grouper, spanish mackerel, shark, few 10lb to 15lb red snapper, trigger fish and bluefish as we were coming in. The seas where calm and the sunset was beautiful.

As the the gorgeous full moon rose it wrapped up a wonderful day on the Whipasnapa Charter. Can't wait to go back.

Capt Robert McDaniel

Mississippi, Gulf coast Fishing a lil' slow but fairly steady;

Finally a few good days to get out on THE WHIPASNAPA CHARTER BOAT, doing a lil fishing, had trip Thurs Feb. 18th. Fished about 4 hrs mid day in Biloxi Bay. Little slow but not to bad, 9 black (puppy) drum, 3 sheepshead, 2 rat reds. If we don't get to much more rain and it will warm up a little should get real good. Bait shops getting live shrimp now, on and off. That really should help.

Friday Feb. 19th about 4 hrs. Fished a few wrecks off behind Deer Island and picked up 4 flat fish (flounder), 2 sheepshead. Came back in fished the bridges and finished off with 5 drum had 1 sow drum (I reckon) but broke us off.

Had a tuna run suppose to take place Saturday the 20th, but the winds picked up had to reschedule, which was rescheduled from last Saturday. But they determined, said they would take off a day during week so we should get it in. Going to get out to Islands next week see if we can find some trout and reds.

Good fishing
Capt Robert McDaniel

First couple weeks Jan. 2010

Reds, flounders, sheepsheads and black drum in the boat!!!!

Fished just a few hours on the WHIPASNAPA CHARTER BOAT. But felt good to be back on the water been a couple of weeks but bring on the New Year (let's go get them!) Shoot yea! Went out the other day for a few hours while it was warm pretty good bite seems salinity back up. Fish have returned and hungry. We had couple of small reds and flounders a few sheepshead and black drum which we refer to as Back Bay Snapper. A very fun and good eating fish up to about 8 lbs. But there are several 30,40,50 pounders roaming the Bay also. Which puts up a tremendous fight on light tackle. The sheepshead which can be kind of finicky but lots of fun also eat pretty well too (pain to clean).

This was a catch and release trip but lots of fun, and blowed the photo's sorry!

Got couple of bay trips on stand by. Bait shops have nice live shrimp which should help to put some good fish in the box. Usually get a trip or two offshore by or around Mardi Gras (Feb 16, 2010) to check out some cobia, mangrove, amberjack, etc.

In 2008, 12 cobia came home on the first run offshore. So give us a call so we can get you on the boat!

Last Report for 2009!

Would like to THANK everyone that fished, dove, camped or cruised with us this year. We had a lot of great trips this year on the WHIPASNAPA CHARTER BOAT. Put lots of fish in the cooler!! and many great memories!!

Recently mother nature has kept us grounded. But there is still some great fishing offshore and inshore if you can catch some good weather. Inshore, having a pile of rain that has the salinity down to zero so might be a week or two before it picks up, but flounders, specks, reds, sheepshead and drum, should be fairly steady through winter. Offshore tuna, wahoo, mangrove, grouper, cobia, could be boated consistently throughout winter.

Come check out the New WhipaSnapa it's bigger and more comfortable. From Backwater to Bluewater it will catch 'um all!!!!!!!!!!!!!!

MERRY CHRISTMAS AND HAPPY NEW YEAR! FROM THE WHIPASNAPA FAMILY

SEARCHING FOR COBIA: HAD TO SETTLE FOR BLACKFIN, LESSER AMBERJACK, AND KING MACKERAL (11-09)

Did get one more good run on cobia, just before Ida, on that darn Whipasnapa Charter Boat, but then the winds blowed, turned cold and well guess they gone. At least where we were looking. We searched all the way to the tuna hole and all we could mustar out of there was a few blackfin, did get some nice lesser amberjack that was fun and boy they eat and fight really

well. Probably could have sunk the boat with some really large whitetrout.

Man the Bay is hot! Flounder, ground mullett, whitetrout, specks, sheepshead, and drum are really biting! Offshore fighting probably done. Going to get in tree stand till someone wants to make some light tackle runs.

EVERYONE HAVE A SAFE AND HAPPY HOLIDAY!!!

Capt Earl

Cobia (aka ling, lemon fish) Once Again On Top

11-09

A limit of really nice cobia has come home to Biloxi, Ms., " with WHIPASNAPA CHARTER Boat" each time out. Been picking up some really nice trout and lane snapper also. Some of the pods of cobia would have 12 or more fish 1 rig must have been 25 to 30.

Wind been lil strong lately just right for camping on Horn or Ship Islands or some good light tackle action in Biloxi Back Bay big specks or moving in an plenty of sheepheads and blackdrum too.

So load up come see!!

10-26-2009 Biloxi, Ms.

Nice Cobia (aka: ling-lemon fish) invade South Ms. waters on their return migration!

Well cobia (ling-lemon fish) would have to take top billing on this report. In 2 offshore trips just 15 to 20 miles behind Horn Island the new 29 ft. WHIPASNAPA CHARTERS boat caught over 25 cobia all between 20 to 40 lb. What a hoot! Also caught Dorado (aka-dauphin-Maui Maui), king mackerel, lane snapper, flounder and white trout.

Try to go one other day and decided to turn around lil bit to rough. 1-3 hr light tackle inshore we did boat over 30 nice black drum, 6 or 8 over 10 lb the rest 2 to 6 lb good eating size, an lots of fun. These cobia should be around another few weeks.

So lets go get'um

Capt Earl
